

Greetings,

On 10/27/09 the subcommittee of the ED&A met. Members of NHADACA, and both the LADC and Mental Health Boards were well represented to review and discuss the amendments submitted. By unanimous committee vote HB 410 was referred with amendment to the full ED&A committee with a positive recommendation. The vote in the full committee is officially scheduled as an executive session for 11-19-09 with no opportunity for outside discussion or testimony. What this means for all of us is that the work must be completed before 11-19-09! Please be on the lookout for Action Alerts from the Public Policy Committee containing contact information and talking points. As always, please visit us or feel free to contact us via email @ nhadaca.org.

Respectfully,

President- Susan Latham MA, LADC, CCFC
