

***Are you looking for an exciting job opportunity in a well-established organization?  
Do you know someone who is?***

Dear Fellow Professional:

For over 30 years, West Central Behavioral Health has had a longstanding tradition of providing quality Mental Health and Addiction Services for the Community. Our Mission is to “...*reduce the burden of mental illness and to improve and the quality of life in our community.*” To accomplish this, West Central has assembled a multi-disciplinary team of talented professionals. Working together toward a common goal, our staff served nearly 5,000 adults, adolescents and children last year.

Currently, we are accepting applications for a NH LADC, with a graduate degree in psychology, social work, counseling or related field with education/experience suitable to support knowledge and skill in working with incarcerated adults with substance use and mental health disorders. LADC with LCMHC or LICSW is desired for this 30 hour per week position with benefits.

The ideal candidate will be able to provide clinical assessment and offer evidence-based group and individual therapy for Community Corrections Center clients with substance use and mental health disorders. As a Clinician in this program, you will also provide aftercare services in a Community Mental Health Center setting in Claremont NH.

If you are a team oriented, flexible and creative clinician, and have a strong interest in providing quality evidence-based care and a high level of customer service within correctional and community-based environments, this could be the perfect position for you. So, if you are interested in becoming part of our Substance Abuse Services Treatment Team or just curious about this position and would like to earn a competitive salary and receive comprehensive benefits, please see the **Clinician – Addictions** position on our website: [www.wcbh.org](http://www.wcbh.org)

West Central Behavioral Health is affiliated with Dartmouth Medical School Department of Psychiatry.
