

THE NH TRAINING INSTITUTE ON ADDICTIVE DISORDERS

Presents:

STREET DRUGS: CURRENT TRENDS

with Mary-K O'Sullivan, LMFT, LADC, LPC

1 HOUR WEBINAR TRAINING

PRESENTATION: In addition to the significant issue with opioids that is present in the United States, synthetic drugs, for a variety of reasons, are also becoming an epidemic in the United States. Many clinicians and clients are unaware of their use because they can be sold under traditional trade names that disguise their origin. In this training, participants will obtain updates of prescription drugs of abuse and learn about the range of the illicit synthetic drugs that are flooding the street. As a result of this training participants will:

1. Be able to discuss specific prescription medications now being highly abused in the U.S.
2. Review the "new synthetic drugs" that are replacing the traditional drugs of abuse
3. Overview the risks of the multiple synthetic drugs currently flooding the illicit drug market

PRESENTER: **Mary-K O'Sullivan**, LMFT, LADC, LPC is a Behavioral Health Clinical Manager for the Connecticut Department of Mental Health and Addiction Services (DMHAS). She has been employed by the DMHAS for 17 years and currently oversees the CSP, Peer Support and Young Adult Services Hilltop programs as well as being the Director of Education and Training for the Capital Region Mental Health Center in Hartford, Connecticut. She has been working as a Clinical Manager and Clinical Trainer for over 25 years. She has worked in both the private and public sectors in the fields of substance use disorders, co-occurring disorders and clinical supervision in both inpatient and outpatient programs. She has worked as a trainer for the Department of Corrections, the Judicial Department, and the Department of Mental Health and Addiction Services Division of Education and Training in the State of Connecticut as well as working as the Clinical Preceptor for the SARP program at the Groton Naval Submarine Base. She has trained both Nationally and Internationally including spending 10 years training with David Powell, PhD. and spending time in Singapore assisting their treatment network in developing skills in co-occurring disorders treatment. She provides training to Private Non-profits, DOC staff, DCF staff, DOL staff, adult and juvenile probation officers, parole officers, juvenile residential services staff, bail staff, women's and family matters staff, clinicians, case managers, and medical staff. She has continued her clinical education at the Fielding Graduate Institute in their PhD program in Clinical Psychology.
